

(FORM D)

**ACCREDITATION GUIDELINES OF THE
MEDICAL REHABILITATION THERAPISTS
BOARD OF NIGERIA**

FOR

**UNIVERSITIES OFFERING
PHYSIOTHERAPY PROGRAMME.**

ACCREDITATION GUIDELINES FOR UNIVERSITIES OFFERING PHYSIOTHERAPY PROGRAMME IN NIGERIA

Introduction

The Medical Rehabilitation Therapists Board of Nigeria (MRTBN) established by Decree 38 of 1988/ Acts M9 LFN 2004 for the regulation and control of training and practice of Physiotherapy, Occupational Therapy, Speech Therapy, Audiology, Prosthetics & Orthotics, Chiropractic and Osteopathic Medicine Professions in Nigeria.

Aims of the accreditation

The aims of accreditation of academic programmes by the Medical Rehabilitation Therapist (Registration) Board of Nigeria are to:

- a. Ensure that the provisions of the Core Curriculum Minimum Academic Standards document are attained, maintained and enhanced by all institutions running the Physiotherapy Programme.
- b. To ensure that Physiotherapists produced attain clinical competence required to handle patients after graduation.
- c. To certify the graduands with professional licence to practice as competent and skillful Physiotherapist after graduation.
- d. To ensure that high standards are maintain at all times.

The accreditation

a. Existing Physiotherapy Programmes

All existing Physiotherapy programmes **MUST** apply for re-accreditation at least three (3) months before the expiration of their accreditation status.

b. New Physiotherapy Programmes

A pre-accreditation visit shall be conducted before the admission of the first set of students. The **ACCREDITATION** exercise **MUST** be carried out by the third year of the pre-clinical training.

c. Certification & Licensing

After a successful accreditation exercise, the Institution shall be issued a certificate/licence of accreditation renewable every four (4) years for full accreditation status, and after two (2) for partial accreditation status.

- i. However, the Board reserves the right to arrange visitation to any institution when there is a valid reason, such as a breach of minimum standards. If the institution is found wanting, sanctions such as denial of induction of graduands and subsequent licensing, or outright de-accreditation of the programme may be imposed.

d. Subsequent Visitations

- ii. i. Programmes that receive full accreditation, **MUST** apply for re- accreditation three (3) months before expiration of the four (4) years, at which time their accreditation status would have expired.
- iii. ii. Programmes that receive partial accreditation, **MUST** apply for re- accreditation three (3) months before expiration of the two (2) years, at which time their accreditation status would have expired.

- iv. iii. Programmes that are denied accreditation, **MUST** apply for review within six (6) months to one (1) year. Should a programme receive two (2) consecutive denials, the programme **WILL** be shut down.

Key Areas of Consideration during the accreditation

I. Academic matters

- a. A copy of the senate-approved **Curriculum** for the Doctor of Physiotherapy (D.PT) training programme should be available.
- b. The curriculum should also clearly outline the:
 - ***Programme Philosophy and Objectives***
 - ***Admission Requirements***
 - ***Course Contents and Descriptions***
 - ***Progression within the Programme***
 - ***Academic Regulations***
 - ***Duration of the Programme***
 - ***Graduation Requirements***

It should also specify skills and competencies expected of an average graduate of the programme.

i. Programme Philosophy and Objectives

The philosophy and objectives of the programme must be clearly stated in both the curriculum and student's handbook.

ii. Admission Requirements

The admission requirements into the physiotherapy programme at all levels of training must be clearly stated in the curriculum and student's handbook, and must be consistent with the standards of physiotherapy practice and for physiotherapy training.

Transfer and post-UTME students must all satisfy the 'O' level requirements.

ii. Course Contents and Description

The course contents and descriptions shall be as outlined in the minimum standards of the Medical Rehabilitation Therapist Board.

iii. Progression in the Programme

The conditions for progression from one level to the next should be clearly stated in the hand book.

Emphasis should also be placed on failure policies, re-sit examinations, and external examination where applicable.

iv. Academic Regulation

Approaches to **course evaluation** (including lecture schedules, course distributions, lecture notes, student's time table, continuous assessment, examination, and availability of exam time table etc.),

practical, and research project should be clearly captured in the curriculum and the student's handbook.

External examiners shall be used for moderation during practicals, and clinical examinations as well as project defence.

iv. Duration of the Programme

v. Graduation Requirements

II. STAFFING

a. Academic Staff

i. The Head of Department

The Head of Department must hold a PhD with a first degree in Physiotherapy, and be registered and currently licensed with the Medical Rehabilitation Therapist (Registration) Board of Nigeria (MRTB).

ii. Lecturer-Student Ratio

The Medical Rehabilitation Therapist Registration Board of Nigeria's approved Lecturer-to-Student ratio for the DPT degree as 1:10.

iii. Staff Mix by Rank

The Staff mix by rank should meet the minimum of 20:35:45 for professors, senior lecturers and lecturers I/II or equivalent ranks respectively.

iv. Lecturer Qualification

There must be a full complement of Lecturers with at least a Masters' Degree in different physiotherapy specialties areas as specified in the approved curriculum.

b. Non-Academic Staff

i. Physiotherapy Technicians

There must be a minimum of four (4) physiotherapy technicians in the physiotherapy laboratories.

ii. Administrative Staff

There must be a minimum of four (4) secretarial and administrative staff members.

iii. Support Staff

There must also be cleaners, and security personnel assigned to the department.

III. PHYSICAL FACILITIES

A purpose-built department in a clean and tidy environment with a conspicuous sign post should be available within the institution. The department should maintain a clean and tidy environment.

a. Staff Offices

The department should have the following offices:

- Head of department's office with a convenience and attached Secretarial unit.

- A minimum of fifteen (15) offices for academic staff.
- Departmental secretariat.
- Departmental seminar room.

b. Lecture Halls/ Lecture Theatres/ Classrooms

- A minimum of Four (4) well-ventilated and well-illuminated Classrooms with teaching facilities (projector, interactive board, public address system, etc.), each with a capacity of not less than fifty (50) students.
- Adequate, clean and gender-sensitive conveniences.
- A well-ventilated and well-illuminated Seminar Room equipped with teaching facilities should also be available.

c. Hostel Accommodation:

A well-furnished hostel accommodation with adequate water supply and electricity should be provided for both pre-clinical and clinical students.

d. Basic Medical Laboratories

- A well-ventilated, well-illuminated and adequately equipped Gross Anatomy and Embryology Laboratory, (see **appendix I** for the list of equipment) A cadaver storage facility (graveyard) should be available
- A well-ventilated and well-illuminated and adequately equipped Histology laboratory and Museum, (see **appendix II** for the list of equipment).
- A well-ventilated and well-illuminated and adequately equipped Biochemistry Laboratory, (see **appendix III** for the list of equipment)
- A well-ventilated and well-illuminated and adequately equipped Physiology Laboratory, (see **appendix IV** for the list of equipment).

e. Physiotherapy Demonstration Laboratory

- A well-ventilated and well-illuminated and adequately equipped **Human Movement Laboratory**; with movement analysis equipment, (see **appendix** for the list of equipment).
- A well-ventilated and well-illuminated and adequately equipped **Exercise therapy/Gymnasium**; with wooden /synthetic bouncing flooring structure, (see **appendix V** for the list of equipment).
- A well-ventilated and well-illuminated and adequately equipped **Electrotherapy Room**, (see **appendix VI** for the list of equipment)
- A well-ventilated and well-illuminated and adequately equipped **Hydrotherapy Room**, (see **appendix VII** for the list of equipment)
- A well-ventilated and well-illuminated and adequately equipped **Simulation Room**, (see **appendix VIII** for the list of equipment)

f. Library

- A central library and Faculty/departmental library must be provided with adequate provision of current physiotherapy textbooks, journals, periodicals and bibliographic indices.

- ii. An e-library with subscription to relevant databases as well as sufficient offline materials related to physiotherapy training should be provided.
- iii. Internet facilities with strong connectivity and adequate bandwidth coverage should be available.

g. Transportation

In addition to the university shared transportation system, the department should have a bus capable of accommodating at least Fifty (50) students for community posting and external training.

h. Alternative Power Supply

There should be an alternative source of power such as a standby generator or Solar system to complement the national power grid.

i. Safety Measures

- Fire extinguisher, fire blankets, sand buckets, and other necessary safety tools should be installed in strategic locations such as classrooms, laboratories, offices, hostels, etc.
- There **MUST** be a muster points specified with a clear signage and direction. In addition, there must be exit doors in all the facilities for safety.
- Ramps and rails should be installed to support physically challenged staff and students to prevent falls (see **appendix xiii** for the list of equipment).

IV. Clinical Training

a. Teaching Hospital:

This **MUST** be a tertiary health facility with a level of health care obtained from specialists in a large hospital after referral from primary and secondary care providers. It must be a facility with minimum of 250 beds and with a full complement of services, including pediatrics, obstetrics, general medicine with neurology unit, gynecology, various branches of surgery with orthopedic unit, anesthesia with ICU, and psychiatry, or a specialty hospital dedicated to specific sub-specialty care (pediatric centers, oncology centers, psychiatric). There **MUST** be a purpose-built Physiotherapy department with well-furnished offices, treatment areas, call duty rooms, student changing areas, seminar room, departmental library etc. The Physiotherapy department in said hospital should have a minimum of 40 registered physiotherapists providing physiotherapy services across various specialties viz;

Physiotherapy Specialty Areas:

- i. Paediatrics (see **appendix XI** for the list of equipment),
- ii. Neurology (see **appendix XII** for the list of equipment),
- iii. Orthopaedics and Musculoskeletal (see **appendix XIII** for the list of equipment),
- iv. Pelvic and Women's Health Physiotherapy (see **appendix XIV** for the list of equipment),
- v. Cardiopulmonary (see **appendix XV** for the list of equipment),
- vi. Geriatrics (see **appendix XVI** for the list of the equipment),
- vii. Community (see **appendix XVII** for the list of equipment),

- viii. Palliative care (see **appendix XVIII** for the list of equipment),
- ix. Mental health (see **appendix XIX** for the list of equipment), and
- x. Ergonomics/Occupational health (see **appendix XX** for the list of equipment).
- xi. Sports and Recreational physiotherapy (see **appendix XXI** for the list of equipment).

Each specialty area should have the equipment specified in **appendix V-XXI**.

b. Physiotherapy Department/Faculty:

The physiotherapy academic department should be located within the teaching hospital.

c. Student Hostel:

All students at the clinical level **MUST** be accommodated within or near the teaching hospitals.

V. Funding:

A clear and sustainable source of departmental funding **MUST** be clearly identified for the day to day running of the department including consumables required for the demonstration rooms/ laboratories.

Expected equipment and the required quantity

Appendix I: Anatomy and Embryology

This should contain body storage tank, preparation room, embalming room, museum, dissection room for 8-10 students per cadaver, tutorial room, general store, staff offices, and an adequate running water supply. There should also be:

S/N	Items	Quantity
1.	Embalmed bodies	I cadaver per set of 6 students
2.	Anatomage Table	1
3.	Equipment Trolleys	3
4.	Electric Embalming Machine	1
5.	Bone Cutting Equipment - Electric saw/drill	2
6.	Articulated and unarticulated skeletons	5
7.	X-ray Viewing Boxes	3
8.	Air-conditioners for the Dissecting Rooms and Air Extractors.	4
9.	Models	5
10.	Slide for Sections	Many
11.	Slide Projectors	3
12.	Toilet Facilities	Gender sensitive
13.	Changing Rooms	2
14.	Shower Room etc.	1

Appendix II: Histology

There should be an air-conditioned store where consumables are kept, offices, preparatory room, teaching laboratory for student with teaching aids, microscope store or under bench cupboards,

wash up room with adequate running water supply, work benches with zinc or Formica shelves for glass ware, burners etc. Other items are listed below;

S/N	Items	Quantity
1.	Microtome	2
2.	Rotary/Sledge Microtome Knives	3
3.	Light Microscopes Microtome	1 per 2 students
4.	Vacuum Pump Dissecting Microtome	3
5.	Cryostat with Microtome	3
6.	Teaching Microscope	3
7.	Electron Microscope	1 per 2 students
8.	Slides	Many

APPENDIX III- Biochemistry

There should be an air-conditioned store where consumable materials are kept, technician offices, a preparatory room, teaching laboratory for students with adequate running water supply, a shower area. There should also be:

S/N	Items	Quantity
1.	Centrifuge	6
2.	Ultracentrifuge	2
3.	Electronic Balances	2
4.	Heating Block	8
5.	Vacuum Pumps	2
6.	Spectrophotometer	1 per 10 students
7.	PH. Metres	1 per 5 students
8.	Thermostatic Water Bath	1
9.	Burner	3 per bench
10.	Test Tube (varying sizes)	Many
11.	Distiller	3

Appendix IV Physiology

The physiology department should have an animal house where experimental animals are kept. The laboratory should have an air-conditioned store, a preparatory room, wash room with adequate running water supply, laboratory staff offices. Other equipments are listed below;

S/N	Items	Quantity
1.	Spirometer	1 per 5 students
2.	Vitalograph	1 per 5 students
3.	Polygraph	1
4.	Peak Flow Metre	1 per 5 students
5.	Gas Metre	2
6.	ECG Machine	4
7.	Spectrophotometers	1 per 5 students
8.	Physiograph Recorder Transducers	1 per 5 students

9.	Oscilloscopes	4
10.	Centrifuges	6
11.	Blood Gas Callipers	2
12.	Audiometer	2
13.	Water Baths	2
14.	Electronic Weighing Balance Scale	2
15.	Flame Photometer	4
16.	Microcentrifuge	2
17.	Water Distiller	5
18.	Bicycle Ergometer	3
19.	Stethoscopes/ Sphygmomanometres	12
20.	Electron Microscope	I per 2 students
21.	Teaching Microscope	3
22.	Slides	Many
23.	Snelle's Chart	5

APPENDIX V: EXERCISE THERAPY/ GYMNASIUM EQUIPMENT

An adult gymnasium that is echo proof with wooden or synthetic bouncing floor structure, about 25 square metres wide 5 to 7 metres high. Equipment's for gymnasium are as follows;

S/N	Items	Quantity
1.	Multi Gym	2 minimum
2.	Treadmill	5
3.	Bicycle Ergometer	5
4.	Elliptical Bicycle Ergometer	2
5.	Recumbent Bicycle Ergometer	2
6.	Hand Exerciser	5
7.	Shoulder Wheel	2
8.	Shoulder Ladder	2
9.	Quadriceps Drill/Bench	1
10.	Traction Units (cervical/lumbar)	1 each
11.	Medicine Ball (5 varying weights)	1 each
12.	Exercise Ball	5
13.	Reciprocal Pulley	2
14.	Steppers	2
15.	Wooden Staircase (firm/shakeable)	2
16.	Wobble Board	5
17.	Parallel Bar	1
18.	Standing Mirror	3
19.	Exercise Mat	5
20.	Sitting Box	5
21.	Standing Box	4
22.	TheraBands (yellow, Green, Blue, Red)	10 each of different colours
23.	Handgrip Exerciser	5
24.	Dumbbells of different (1, 2, 3, 4, 5kgs) sizes	5 each
25.	Sand Bags of different sizes (1, 2, 3, 4, 5kgs)	5 each

26.	Walking Frames	10
27.	Suspension Therapy Unit	1
28.	Crutches (Elbow and Axillary)	10
29.	Wheel Chairs	5
30.	Weighing Scale	5
31.	Stadiometer	5
32.	Pulse Oximeter	5
33.	Tape Measure	10
34.	Sphygmomanometer	10
35.	Stethoscope	10
36.	Walking Sticks, Quadraped & Tripod	10
37.	Precision Box	3
38.	X-ray Viewing Box	4
39.	Exercise Couch	5
40.	Makintosh	
41.	Pillows	
42.	Bedsheet	
43.	Finger Ladder	2

APPENDIX VI: Electrotherapy Demonstration Room

The electrotherapy demonstration area should be about 15 to 18 metres by 7 to 10 metres with even non-slippery flooring, screened out to accommodate an Equipment trolley, a Plinth and a stool each. The screened area should have a well-insulated electrical outlet. The equipment are listed below;

S/N	Items	Quantity
1.	TENS Machine	4
2.	EMS Machine	3
3.	IRR Luminous	4
4.	IRR Non-luminous	2
5.	Shortwave Diathermy	2
6.	Wax Bath	4
7.	UVR	5
8.	IF Therapy	3
9.	Shock Wave	2
10.	Micro Wave	2
11.	Ice Making Machine	3
12.	Therapeutic Ultrasound	3
13.	Laser or Light Therapy	3
14.	Hydrocollator Unit	2
15.	Pneumatic Machine	2

APPENDIX VII: HYDROTHERAPY ROOM

S/N	Name of Equipment	Total Number Required
1.	Standard Hydrotherapy Pool	1
2.	Aquatic Ergometer	1
3.	Aquatic Treadmill	1
4.	Life Jacket	4

APPENDIX VIII: Simulation Laboratory

S/N	Name of Equipment	Quantity
1.	High Impedance Mannequin	One high impedance mannequin
2.	Mannequins and Beds in the Laboratory	10 of manual mannequins and 10 beds, the laboratory should be constructed like cubicles

Appendix IX: Diagnostic Equipment

S/N	Name of Equipment	Total Number Required
1.	Goniometers	4
2.	Sphygmomanometer / Stethoscope	4
3.	Spirometers	4
4.	Peak Flow Meters	4
5.	Skin Fold Callipers	4
6.	One Stop Watch	4
7.	Hand Grip Dynamometer /Digital Dynamo	5
8.	Scale Weight (wheelchair accessible)	3
9.	Pain Rating Scale	4
10.	X-ray Viewing Box`	4
11.	Sensory Processing Test Equipment	2
12.	Heart Rate Monitor	5
13.	Measuring Tape	10
14.	Cognitive Test Equipment	5
15.	Stadiometer	1
16.	EMG	1
17.	Body Mass Index Calculator	5
18.	Pulse Oximeter	5
19.	Reflex Hammer	5
20.	Tongue Depressor	Packs
21.	Tuning Fork (128Hz)	5
22.	Two Test Tubes	5
23.	Familiar Objects (e.g. paper clip, coin, marble)	4
24.	Pen Light	5
25.	Thermometer	5

26.	Cotton Ball or Cotton Tipped Swab	PACK
27.	Periniometer	4

APPENDIX X: Infection Control

S/N	Name of Equipment	Total Number Required
1.	Face Masks	Packs
2.	Disposable Gloves	Packs
3.	Sputum Containers	Packs
4.	Sterilizing Unit	1
5.	Autoclave	1
6.	Antiseptic Solution	packs
7.	Washing Machine	1
8.	Drying Machine	1

APPENDIX XI: PAEDIATRIC PHYSIOTHERAPY UNIT

A paediatric gymnasium that is echo proof with wooden or synthetic bouncing floor structure about 25m² wide, and 5-7m height. In addition, the equipment is listed below:

S/N	Name of Equipment	Quantity
1.	Gait Trainers	3
2.	Precision Boxes	3
3.	Precision Toys	10
4.	Giant Mirrors	Wall to wall
5.	Prone Standers	4
6.	Standing Frames	5
7.	Treatment Plinths	4
8.	Therapy Balls/Medicine Balls	5
9.	Posterior Walkers	4
10.	Wedges and Rolls	5 each
11.	Frenkel Mats	5
12.	Paediatric Treadmill	3
13.	Resistance Bands	10 (different colors)
14.	Paediatric Crutches	5
15.	Paediatric Tilt Bed	2
16.	Supportive Garment	3
17.	Stabilization Belts	3
18.	Everyday Objects for ADL	10
19.	Exercise Mats	5
20.	Adapted Eating and Drinking Products	5

APPENDIX XII: NEUROLOGY PHYSIOTHERAPY UNIT

S/N	Name of Equipment	Total Number Required
1.	Suctioning Machine	2
2.	Tilt Bed	2
3.	Theraband – Resistance Band (Yellow, Green, Blue, Red)	10 each
4.	Neuro-com Balance Master	3
5.	Wheelchair – Motorised	2
6.	Walking Sticks	3
7.	3 by 4 Wheeled Walker	3
8.	Precision Box	3
9.	Gait Belts	3
10.	Pulse Oximeter	3
11.	Wall Bar	2
12.	Standing Infra-red Lamp (luminous/non-luminous)	3
13.	Metronome	5
14.	Spit Basin	8
15.	Flashlight	10
16.	Cognitive Test Equipment (PD & dementia)	10
17.	Transfer Boards/Slide Sheet	8
18.	Pillows	10
19.	Foam Rollers/Wedges	10 each
20.	Splinting Kit (static/dynamic)	5 each
21.	Orthoses Kit	5
22.	Casting Kit	5
23.	Rollator	5
24.	Equipment for Sport and Recreational Activities	10
25.	Upper Limb Supports	5
26.	Upper Limb Workstation	5
27.	Arm Activity Kit	5
28.	Cycle Ergometer (arm or leg)	4
29.	Stools/Small Benches of varying Height	5 each
30.	Ramps (temporary/mobile)	5 each
31.	Training Stairs	2
32.	Parallel Bar	2
33.	Steps (stackable)	2
34.	Balance Board/Cushion	3
35.	Resistive Exercise Putty	5
36.	Exercise or Gym Balls	5
37.	TENS Supply Kit	4
38.	Treatment Tables	5
39.	(Functional) Electrical Stimulation Kit	2
40.	Assistant Support Belt	3
41.	Transfer Boards/Slide Sheet	4
42.	Weighing Scale & Measuring Tape	2
43.	Heart Rate Monitor	4
44.	Cycle Ergometer (Arm & Leg)	2
45.	Exercise Mats	5

46.	Timer	5
47.	Body Mass Index Calculator	5
48.	Frenkel Mat	2
49.	Paediatric Treadmill	2
50.	Shoulder Wheel	2
51.	Finger Ladder	2
52.	Reciprocal Pulley	5

APPENDIX XIII: ORTHOPAEDICS AND MUSCULOSKELETAL PHYSIOTHERAPY UNIT

S/N	Name of Equipment	Total Number Required
1.	Lumber & Cervical Traction Bed	1
2.	Bicycle Ergometer	4
3.	Treadmill Machine	3
4.	Tilt Bed	2
5.	Parallel Bar	2
6.	Precision Board	4
7.	Dumbbells (1kg, 2kg, 3kg, 4kg, 5kg, 10kg)	One pair each (12)
8.	Gait Belt	2
9.	Tera Bands	10
10.	Hand Exerciser Balls	4
11.	Wall Bar	2
12.	Shoulder Wheel	2
13.	Wooden Staircase	1
14.	Pulse Oximeter	3
15.	Wax Bath Machine	2
16.	Short Wave Diathermy Machine	1
17.	Interferential Current Machine	2
18.	Transcutaneous Electrical Muscle Stimulator	3
19.	Electrical Muscle Stimulator	3
20.	Standing Infrared Machine (luminous/nonluminous)	3 each
21.	Ice Making Machine	1
22.	Ultraviolet Machine	1
23.	Multi Gym	1
24.	Wobble Board	4
25.	Exercise Mats	10
26.	X-ray Viewing Machine	2
27.	Steppers	4
28.	Reciprocal Pulley	3
29.	Therapeutic Ultra Sound Machine	3
30.	Orthoses Kit	2
31.	Splinting Kit (static/dynamic)	2
32.	Balance Board/Cushion	4
33.	Training Stairs	3
34.	Transfer Boards/Slide Sheet	4
35.	Steps (stackable)	3

36.	Ramps (temporary/mobile)	4
37.	Upper Limb Workstation	2
38.	Resistive Exercise Putty	3
39.	Stabilization/Mobilization Belts	4
40.	Splinting Kit (static/dynamic)	3
41.	Orthoses Kit	3
42.	Casting Kit	3
43.	Walking Frames/W	5
44.	Rollators	5
45.	Crutches, Axillary/Elbow	5
46.	Canes/Sticks/Tetrapod	5
47.	Hot and Cold Packs	5

APPENDIX XIV: PELVIC AND WOMEN'S HEALTH PHYSIOTHERAPY UNIT.

S/N	Name of Equipment	Total Number Required
1.	Vaginal Cones (diff sizes)	5 each
2.	Exercise Mats	5
3.	Small and Large Exercise Balls	5 each
4.	Dumbbells of different sizes	5
5.	Bicycle Ergometer	2
6.	Treadmill	2
7.	Screen	5
8.	Electrical Muscle Stimulator	4
9.	Portable TENS	4
10.	Pedometer	4
11.	Weighing Scale	4
12.	Stethoscope	4
13.	Sphygmomanometer	4
14.	Tape Measure	12
15.	Stadiometer	2
16.	Ultrasound Imaging	2
17.	Vaginal and anal Sensors	5 Packs
18.	Vaginal Weight	3 each
19.	Pulse Oximeter	4
20.	Pelvic Models (male and female)	3 each
21.	Tubi Grip	3
22.	Pelvic Belts / SPD belts	4
23.	Educational booklets on treatment/ HEP (handouts to patients)	
24.	Irrigation Therapy Devices: 1.Peristeen Irrigation system 2. Aquaflush compact system 3.Qufora irrigation 4.Navina Irrigation system	2 each
25.	Pessaries -require trained therapist for fitting	2
26.	Intravaginal Devices for Stress Urinary	2 each

	Incontinence: 1.Contiform 2.Contrelke 3.Efemia 4.Revive	
27.	Cryotherapy in the form of ice fingers (made using examination gloves)	4
28.	Foam Wedge	5
29.	Biofeedback Machine	2
30.	Vibrators (Patient acquired-personalized)	2
31.	Pelvic Wand	4
32.	Kegel Balls	5
33.	Dilators (Patient acquired-personalized)	-
34.	Surface Electrodes	10
35.	Lubricating Gel	5 packs
36.	Vaginal balls for Kegel exercises	6

APPENDIX XV: CARDIO-PULMONARY PHYSIOTHERAPY UNIT

S/N	Name of Equipment	Total Number Required
1.	Modern Mechanical Vibrators	2
2.	ECG Cycle Ergometers	2
3.	ECG Treadmills	2
4.	ECG Device	3
5.	Dynamometers	2
6.	High Frequency Chest Wall Oscillation (HFCWO) Device	2
7.	High Frequency Chest Compression Machine	2
8.	Nimbus Series Bed at least 1	1
9.	Positive Expiratory Pressure (PEP) Mask with Manometer	2
10.	Electro Flo 5000 Airway Clearance Device	2
11.	Chest Vibrator	2
12.	Children CompAir Lightweight Compressor Respiratory Nebulizer Inhale	2
13.	Lumbar Vibratory Massage Pillow	4
14.	Apex Exercise Pulley Set	4
15.	Handycare Rollator	5
16.	Mini Electric Exercise Bike	2
17.	Mobile Frame Gait Walker	3
18.	Fourier Intelligence Robot	2
19.	Exercise Stair & Steps	2 each
20.	Electronic Nebulizers	2
21.	Peak Flow Meter	4
22.	Respiratory Exerciser	4
23.	Pulse Oximeter	4
24.	Ambu Bag	4
25.	Suctioning Machine	2

26.	Heart Monitor	4
27.	ECG Machine	2
28.	Non-invasive ventilators	2
29.	Spirometers	5
30.	In-sufflators	2
31.	Ex-sufflators	2

APPENDIX XVI: GERIATRIC PHYSIOTHERAPY UNIT

S/N	Name of Equipment	Total Number Required
1.	Electrical Muscle Stimulators	2
2.	Stethoscope	5
3.	Sphygmomanometer	5
4.	Exercise Mats	5
5.	Reciprocal Pulley	4
6.	TheraBand (yellow, red, blue, black)	2 each
7.	Therapeutic Ultrasound Machine	4
8.	Sand Bag 3kg, 2kg, 1kg	2 each
9.	Transcutaneous Electrical Nerve Stimulator	5
10.	Plinths	5
11.	Bicycle Ergometer	4
12.	Shortwave Diathermy	2
13.	Wall Bars	4
14.	Finger Ladder	4
15.	Shoulder Wheel	4
16.	Standing Mirror	4
17.	Hand Function Board	4
18.	Hand Balls/Hand Exercisers	5
19.	Wooden Stair Case	4
20.	Wobble Board	5
21.	Gait Belts	4
22.	Steppers	10
23.	Parallel Bars	2
24.	Standing Infrared Machine	1 each

APPENDIX XVII: COMMUNITY-BASED PHYSIOTHERAPY UNIT

S/N	Name of Equipment	Total Number Required
1.	Portable Ultrasonic Therapy Machine	2
2.	TENS/EMS	2 each
3.	Infra-Red Lamps	3
4.	Freezer (small size) for Ice making	1
5.	Parallel Bar	1
6.	Walking Aids (axillary crutches, elbow crutches, walking frame, tetrapod stick, tripod stick)	5 each

7.	Exercise Mats	5
8.	Weights/Sand bags	5 each
9.	Lumbar and Cervical Traction Kits	1 each
10.	Wooden Staircase	1
11.	Hand Exercisers	4
12.	Wobble Boards	4
13.	Wall Bar	1
14.	Pulse Oximeter	4
15.	Stethoscope	2
16.	Sphygmomanometer	2
17.	Shoulder Wheel	2
18.	Bandages	10
19.	Pulse Oximeter	2
20.	Gait Belts	2
21.	Frenkel Mats	2
22.	Plinths	2
23.	Giant Standing Mirrors	1

APPENDIX XVIII: PALLIATIVE CARE PHYSIOTHERAPY UNIT

S/N	Name of Equipment	Total Number Required
1.	TENS	5
2.	Hot and Cold Packs	3 each
3.	Foam Wedges	5
4.	Foam Rollers	5
5.	Utensils for Activities of Daily Living	Many
6.	Balance Board/Cushion	2
7.	Resistance Bands	5 each
8.	Weights	3 each
9.	Exercise Ball	5
10.	Assistive Products for Dressing	3
11.	Assistive Products for Toileting	3
12.	Adapted Eating and Drinking Products	3
13.	Equipment for Sport and Recreational Activities	
14.	Steppers	3

APPENDIX XIX: MENTAL HEALTH PHYSIOTHERAPY UNIT

S/N	Name of Equipment	Total Number Required
1.	Balance Board/Cushion	3
2.	Cycle Ergometer (arm or leg)	2
3.	Resistance Bands	3 each
4.	Utensils for Activities of Daily Living	3
5.	Video Recording Devices	
6.	Dumbbells of Varying Sizes	3 each

7.	Giant Mirror	2
----	--------------	---

APPENDIX XX: ERGONOMICS AND OCCUPATIONAL HEALTH PHYSIOTHERAPY UNIT

S/N	Name of equipment	Total Number Required
1.	Portable Ultrasonic Therapy Machine	2
2.	TENS/EMS	2 each
3.	Standing Infra-Red Lamps	3
4.	Freezer (small size) for Ice making	1
5.	Parallel Bar	1
6.	Walking Aids (crutches)	5 each
7.	Exercise Mats	5
8.	Weights/Sand Bags	3 each
9.	Cervical Traction Machine	1 each
10.	Wooden Staircase	1
11.	Hand Exercisers	4
12.	Wobble Boards	4
13.	Wall Bar	1
14.	Pulse Oximeter	4
15.	Stethoscope	2
16.	Sphygmomanometer	2
17.	Shoulder Wheel	2
18.	Bandages	10
19.	Gait Belts	2

APPENDIX XXI: SPORTS AND RECREATIONAL PHYSIOTHERAPY

S/N	Name of Equipment	Total Number Required
1.	Goniometer	
2.	Measuring Tape	
3.	Hand Dynamometer	
4.	Reflex Hammer/Patella Hammer	
5.	Resistance Bands	
6.	Dumbbells	
7.	TENS	
8.	Therapeutic Ultrasound	

9.	Ice Packs//Cryotherapy Cuffs	
10.	Treadmill	
11.	Braces/Splints	
12.	Kinesiotapes	

APPENDIX XXII: SAFETY MEASURES

S/N	Name of Equipment	Total Number Required
1.	Alarm	Should be Placed in strategic locations
2.	Fire Extinguisher	Should be Placed in strategic locations
3.	Blanket	Should be Placed in strategic locations
4.	Intercom	Should be Placed in strategic locations
5.	Fire Assembly Point	Should be Placed in strategic locations
6.	Sand Bucket	Should be Placed in strategic locations
7.	Clearly marked direction to muster point
